

Yael software

Leading software solution

Yael Software & Systems is one of the leading Integration and IT companies in Israel. The company was founded in 1963 and it specializes in a variety of end-to-end technological solutions. Yael Software & Systems is part of the Yael Group .The Group is privately owned and has the strong financial backing of a leading Canadian concern.

Yael Group consists of four leading companies in their field:

- **Yael Software and Systems** - Leading System Integrator - the parent company
- **Surecomp** - Leading worldwide trade finance solutions
- **IFN** - Content & Process management Systems
- **Yael Integrated Solutions** - Hardware & Services solutions

Yael Software & Systems numbers about 500 employees, most of them are senior software engineers who provide solutions to a range of sectors in the market, such as banking and finance, insurance, industry and commerce, central and public government, army and defense, medicine, hi-tech and telecom.

In addition, Yael Software & Systems operates outside Israel and provides consultancy, software solutions and the implementation of projects for leading customers.

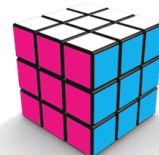

The company operates in several main areas:

- Implementation of complex solutions at system integrator level
- Undertaking and implementing tailor-made projects to customers' needs in a range of technologies
- Implementing integration and product-based projects
- Outsourcing and Consultancy to customers

The interlacement of Technological innovation and rich experience

Yael Software & Systems' decades-long leadership in the IT market stems from a number of factors, one of which is its ability to develop, implement and integrate a variety of solutions while focusing on long-term customer relations, maintaining reliability and professionalism.
